

APLNG is committed to respecting the rights and interests of individual citizens, relevant organisations and the communities in the areas in which the Project will operate.

As part of the procedure for the Environmental Impact Statement (EIS), you will have the opportunity to comment about the Project at two critical points during the evaluation process. These are at the release of the EIS terms of reference and Draft EIS report. However, APLNG is keen to hear from you at any time.

A range of two-way communication tools will be implemented to inform you and encourage your input into the process.

These may include:
