

The APLNG Project will generate significant benefits at regional, State and national levels, including:

- \$35 billion in capital investment through to 2020
- Creation of a new, long-term gas processing and export industry in Queensland
- Creation of 4,000 to 5,000 jobs during the peak construction phase which includes the gas fields, pipeline route and LNG plant
- Creation of 1,000 jobs during the operation of the Project
- Expenditure in regional economies through the purchase and use of local resources, where practicable, for the construction and operation of the plant
- Raising the profile of CSG production in Queensland

ConocoPhillips

APLNG is a CSG to LNG Joint Venture between Origin and ConocoPhillips
